

Project 8

Sathya Sai Institute of Higher Medecine, Andra Pradesh, India

Client:
Sri Sathya Sai Medical Trust

Architects:
Triad Architects
Keith Critchlow
Ann Noble Architects

Estimated Contract Value:
N/A

Period of Involvement:
1990-1991

The magnificent Institute of Higher Medicine stands as a landmark in an arid rural setting. It offers free tertiary care in cardiology, cardio-thoracic surgery, uro-nephrology, ophthalmology, dental, and vascular surgery. The unique architectural form reflects its cultural and spiritual context. Departments are designed and equipped to international standards with a full range of supporting services.

Ann Noble Architects was responsible for all the healthcare briefing, planning, design and equipping of the development.
