

# Services

Our core expertise is the provision of consulting and design services in all aspects of briefing, design, planning, evaluation and procurement of health-care buildings.

In this capacity, we have worked with many different kinds of clients including Architects, Health Consortia & Developers, and Health Service Providers, offering tailored services to their particular needs. These have encompassed:

- ◆ Health building planning and design
- ◆ Development control plans
- ◆ Development of operational policies
- ◆ Preparation of design briefs
- ◆ Space utilisation studies
- ◆ Evaluation of design proposals
- ◆ Feasibility studies
- ◆ Option appraisals
- ◆ Premises audits
- ◆ PFI & LIFT projects
- ◆ Different methods of procurement
- ◆ Evaluation of buildings in use
- ◆ Design guidance and research

Where appropriate we provide full architectural services from within the practice.
